

MARCUS LAURENT

Senior Data Engineer | Paris, France | marcus.laurent@proton.me | +33 6 42 18 09 77

LinkedIn: /in/marcus-laurent | GitHub: mlaurent | Open to EU remote / hybrid

PROFILE

Data engineer with 14+ years building batch and streaming pipelines for retail, fintech, and logistics. Led migrations from on-prem Hadoop to cloud-native stacks (GCP, AWS). Strong in SQL, Python, Spark, dbt, Airflow, and data governance (GDPR, lineage).

CORE SKILLS

Languages: Python, SQL, Scala, Bash | Orchestration: Airflow, Dagster, Luigi
Processing: Spark, Flink, Beam | Warehouses: BigQuery, Snowflake, Redshift, PostgreSQL
Modeling: dbt, dimensional modeling, CDC | Infra: Terraform, Docker, K8s (GKE/EKS)
Observability: Datadog, OpenTelemetry, Great Expectations, Monte Carlo

PROFESSIONAL EXPERIENCE

Carrefour Digital · Lead Data Engineer (2021 · Present)

- Own the product analytics lakehouse (12 PB, 400+ daily pipelines, 85 engineers).
- Cut pipeline SLA breaches 62% by introducing contract tests and partition pruning.
- Migrated 1,900 legacy Hive jobs to dbt + BigQuery; saved ~EUR 480k/year in compute.
- Partner with legal on GDPR retention policies and PII tokenization standards.

PayFit · Senior Data Engineer (2018 · 2021)

- Built payroll event streaming platform (Kafka, Avro, schema registry) for 8 countries.
- Designed idempotent ingestion for HRIS connectors (Workday, SAP SF, ADP).
- Mentored 4 engineers; introduced on-call rotation and runbooks for data platform.

Criteo · Data Engineer II (2015 · 2018)

- Maintained clickstream aggregation jobs processing 900M events/day on Spark.
- Optimized skewed joins reducing worst-case job runtime from 4h to 35 min.

Capgemini · Consultant, BI & Data (2012 · 2015)

- Delivered SAP BW / SQL Server warehouses for utilities and public sector clients.
- Led PoC for real-time fraud scoring using Storm + Redis (BNP Paribas engagement).

Thales · Junior ETL Developer (2010 · 2012)

- Developed SSIS packages for defense logistics inventory reconciliation.

SELECTED PROJECTS

OpenRetailLake · OSS toolkit for slowly-changing dimensions on object storage (1.2k stars).
dbt-codegen-fr · French-language macros for statutory reporting models.

EDUCATION & CERTIFICATIONS

M.Sc. Distributed Systems, Universite Paris-Saclay, 2010

B.Sc. Computer Science, Universite de Lille, 2008 (magna cum laude)

GCP Professional Data Engineer (2023) | Databricks Data Engineer Associate (2022)

AWS Solutions Architect Associate (exp. 2024) | TOGAF Foundation (2019)

LANGUAGES

French (native) | English (fluent, C1) | German (professional, B2) | Spanish (B1)

PUBLICATIONS & TALKS

- 'Partitioning strategies at scale' · DataEngConf Paris 2024 (speaker).
- 'Lineage without the pain' · Medium engineering blog, 2023 (12k views).
- Co-author: INSEE methodological note on retail census imputation (2020).

ADDITIONAL EXPERIENCE (CONTRACT / PART-TIME)

- Freelance · Data platform advisor for 3 early-stage startups (2020 · 2022).
- Defined MVP analytics schemas and hiring rubrics for founding data teams.
- Stack audits: Snowflake cost optimization, Airflow DAG hygiene, IAM reviews.

INRIA · Research intern, distributed storage (2009)

- Prototype erasure coding library in C++ for grid backup prototypes.

TECHNICAL KEYWORDS (ATS)

Apache Spark, Kafka, Debezium, Airbyte, Fivetran, Looker, Tableau, Superset,
Delta Lake, Iceberg, Hudi, Parquet, Avro, Protobuf, gRPC, REST, GraphQL,

CI/CD: GitHub Actions, GitLab CI, Jenkins | IaC: Terraform, Pulumi, Ansible
Security: Vault, KMS, column-level encryption, row access policies, SOC2 controls

VOLUNTEERING

Mentor · Data Women France (2022 · present): mock interviews and portfolio reviews.
Organizer · PyData Paris meetup (2019 · 2021): hosted 14 events, 2.5k attendees.

INTERESTS

Long-distance cycling, contemporary jazz piano, regional French wine mapping side project.
